SUMMARY

Junior Data Analyst with hands-on experience in SQL, Python, Excel, and Tableau for data collection, processing, and visualization. Most passionate about identifying patterns in data and creating clear reports that support business decision-making. Seeking an opportunity to start a career as a data analyst in a company where I can grow my skills and contribute to the team's success.

PROJECT EXPERIENCE

Dashboard for business metrics (Tableau)

Technologies: Tableau, Google Sheets
Description: Developed an interactive dashboard for visualizing key business metrics.
Role: Data collection and processing, chart creation, visualization setup.
Result: A dashboard that simplifies managerial decision-making.

WORK EXPERIENCE

- Cook — Pizza Day
- June 2025 — September 2025
- Prepared dishes according to the restaurant's recipes
- Followed sanitary regulations and safety standards
- Worked efficiently during peak hours
- Maintained cleanliness in the workplace
- Collaborated with the team to ensure fast customer service
- Achievements
  Prepared 20% more dishes per shift than the average kitchen staff member during peak hours, contributing to faster service and increased customer satisfaction
